## **Entry Criteria for CCAs**

### Visual & Performing Arts

All performing arts CCAs will require students to go for selection trials. These trials will gauge students' potential and ability in the CCA. For Choir and Dance, some experience in the area is required. For Concert Band, Guitar Ensemble and IJ Theatre, a strong interest and willingness to learn is necessary. For Arts Alive!, some places will be reserved for students with prior experience.

### Sports and Games

Students in the Sports CCAs will be given opportunities to represent school and as such, students who wish to join should be able to play the sport competently. Coaches are available to help these athletes achieve success in numerous sports competitions. The Sports CCAs will conduct selection trials for those who wish to join. The school's Tennis, Netball CCAs do have some spaces for those with limited experience and are willing to learn.

### Uniformed Groups (UGs).

All students are welcome to join these CCAs. These students should be ready to participate fully in the many challenging, adventurous and fun activities in the UG CCAs.

### Clubs and Societies

Students who wish to join the Debating and Oratory Society will be required to attend a selection trial. For IJ Media Club, some places will be reserved for students with prior experience. The other Clubs and Societies are open to students who possess an interest in the CCA, as well as a desire to learn and contribute.

## CCA Selection and Allocation

The process for CCA selection and allocation is as follows:

1. All Secondary One students and their parents will attend a briefing by the HoD CCA who will explain the importance of participating in a CCA, the school's CCA policy and how CCAs and other co-curriculum activities are graded.
2. Students will visit the various CCA booths to gather information about the various activities on offer during CCA Orientation. They may also approach the respective CCA teachers, prior to making their selection, to find out more about the CCA.
3. Secondary One students are encouraged to attend the various CCA selections of their CCA choices.
4. CCA trial and selection results will be published by 28 January 2025 (Tuesday).

**CCA Grading**

The CCA Grading Scheme ((LEAPS) takes into consideration a number of new initiatives implemented in the last few years, like the Student Leadership Programme, Values-In-Action Programme and the Character and Citizenship Education Programme.

Since 2014, LEAPS 2.0 guides the recognition process for all co-curricular activities in the school.

***Key Domains in LEAPS 2.0 with a focus on “Broadened Recognition; Stronger Student Centricity”***

***Participation***

This domain recognises students’ participation in one school-based Co-Curricular Activity (CCA). Recognition is based on the number of years of participation (with sufficient attendance, i.e. 75%) and exemplary conduct and active contribution to the CCA. ***Sustained engagement in the same CCA*** allows for progressive development of character, skills, knowledge and friendships, and will be accorded higher recognition.

***Service***

This domain recognises students’ development as socially responsible citizens who contribute meaningfully to the community. Every secondary school student will contribute at least 6 hours per school year to the community. In CHIJ, students are also guided to embark on a Values-In-Action project (VIA). Students will be recognised for the time they put into planning, service and reflection, when participating in a VIA project.

***Leadership***

This domain recognises students’ leadership development. Recognition is accorded to students’ ability to take charge of personal development, work in a team and assume responsibilities, in the service of others. In addition to formal leadership appointments, participation in student leadership modules/workshops, the National Youth Achievement Award (NYAA) and leadership positions in the school, CCA or student-initiated/student-led projects will also be recognised.

## Achievement

This domain recognises students' representation and accomplishment in co-curricular involvements beyond the classroom. Opportunities for representation and accomplishment present valuable learning experiences for students to learn discipline, resilience and develop their character. Students may represent the school or organisations endorsed by the school. Recognising external opportunities better caters to students' diverse interests and talents. It also recognises the community's role in developing the child.

- Representation refers to being selected and endorsed by the school or an organisation endorsed by the school (e.g. the community club or national association) to contribute, perform or compete. It need not be tied to his/her CCA in school.
- Accomplishment refers to attaining accolades and awards at competitions, festivals, performances, exhibitions, conferences and symposiums where the student represents the school or other organisations endorsed by the school.

### ***Recognition of Co-curricular Experience***

At the end of the graduating year, students' co-curricular attainment will be recognised according to Excellent/Good/Fair. The level of attainment will be converted to a bonus point(s) which can be used for admission to Junior Colleges/ Polytechnics/ Institutes of Technical Education (JC/Poly/ITE).

<b>Co-Curricular Attainment</b>	<b>Details</b>
Excellent (2 bonus points)	Student who attains a minimum Level 3 in all four domains with at least a Level 4 in one domain.
Good (1 bonus point)	Student who attains a minimum Level 1 in all four domains with any one of the following: i. At least Level 2 in three domains; ii. At least Level 2 in one domain and at least Level 3 in another domain; or iii. At least Level 4 in one domain.
Fair	Student's attainment in co-curricular will not translate into any bonus points.

Annually, we compete in the South Zone Netball Championships and subsequently move on to compete in the National Inter-School Netball Championships.

Competition season lasts from January to April for the ‘B’ division and July to August for the ‘C’ division. Of which, our intensive and rigorous training begins in the months leading up to the competitions for each division.

Under the leadership and expertise of our coach Ms Kok Mun Wai, the CHIJ Netball School Team has flourished as her dedication and passion for the sport has contributed immensely to the netball legacy in CHIJ. It was her guidance, with the support of the school, which led us to claim the double championship title for both ‘B’ and ‘C’ Division in both the South Zone Inter-school Netball Championships as well as National Inter-school Netball Championships consecutively in both 2015 and 2016. In 2017, we achieved championships for South Zone Inter-school Netball Championships while achieving 1st and 2nd placing for ‘C’ division and ‘B’ division for Nationals respectively. Through the team’s perseverance and determination to do our best, our team managed to clinch our double championships once again, both at the 2018 Zonal and National Championships. To help us achieve these aims, the club participates in both competitive and friendly games. Each year, we aim to have every level represent the school in at least one netball competition. We have participated in various age-group netball competitions such as the Daisy Tan Netball Carnival and Netops Carnival. Our members have gained much from participating in such competitions. For the past 4 years, we organised an in-house games carnival to promote the same camaraderie and team spirit. We want our members to enjoy learning the skill as well as playing as a CCA. CHIJ Tennis has a long and illustrious history, from the time the school was at its original site at Victoria Street where training was held in a tennis court surrounded by the Sisters' quarters. In Tennis, we strive not only to nurture each Tennis girl as a fine sportswoman but also, more importantly, to become A Woman of Distinction who espouses our IJ school values.

Our coaches, with the support of the teachers in-charge, work on improving the students' tennis skills and fitness levels with a variety of drills and games. The teachers and coaches believe that a holistic approach to CCA is imperative. Although preparation for the annual National Inter School Tennis Competition is taken very seriously, the more important core sports values of teamwork and sportsmanship are emphasised during all training sessions, and the players' overall growth and development is considered the greatest priority.

<b>TRACK AND FIELD</b>

<b>Venue</b>	School Track and Field

The Athletics CCA is a CCA where girls are given the opportunity to participate in a variety of track and field events, ranging from the fast and furious 100m and the gruelling 3000m, to the explosive Long Jump and technical Shot Put, before they are placed in a specialisation. Certain girls will also have the chance to participate in the cross country events, where runners compete to complete a course over open terrain, i.e. gravel, grass, mud, and hills. Not for the faint-hearted, Athletics is a CCA that demands a high level of mental and physical toughness.

The Athletics team trains under the experienced hands of our coaches and our strong team camaraderie has enabled us to do well each year during the Singapore Press Holdings Schools Relay Championships, the Singapore Youth and Junior Athletics Championships, the National Inter-School Cross Country Championships and the National Inter-School Track and Field Championships, where our girls display their talents and skills in the competition arena. Each year, we strive to go beyond our personal best and bring glory to the school, not just by training hard physically, but also honing our skills and tactical awareness.

Ultimately, the goal for our CCA is not just to win medals, but rather we aim to inculcate discipline within our girls and create opportunities for character and leadership building. We believe it is these values that will allow those who succeed on the track and on the field to achieve similar and greater success in their lives after they have graduated from CHIJ.

At CHIJ 1<sup>st</sup> Coy, our Guides embody the motto “*Be Prepared*”. Using the Girl Guides’ 5-point programme as the guideline, we organize girl-led, innovative and non-formal education activities that blend learning with fun. These include a wide range of indoor and outdoor activities, such as handicrafts, camp-craft, outdoor cooking and overnight camps. These activities not only help our Guides develop valuable life skills but also foster a sense of belonging and inclusiveness within the coy.

With a serving heart and mind, our Guides actively contribute to community service and advocacy projects, both within the school and within the community. One such project includes raising funds for the Girl Guides Association through the annual sale of Girl Guides cookies.

Throughout their Guiding journey, Guides can look forward to opportunities to take the lead in organizing and executing events like the annual Secondary One orientation campfire, overnight camps and collaborating with Guides and Scouts from other schools.

Joining Girl Guides is more than just participating in activities—it is about growing as individuals, building lasting friendships, and making a positive impact on the community and the world.

The award-winning **CHIJ Choir** is well known for its high standards both locally and abroad.

As an established Performing Arts group, the CCA continues to nurture confident choir members who are passionate in taking choral music into top-notch international competitions abroad. Choir girls have participated in festivals and competitions in Sydney Australia, Hawaii USA, Xiamen China, Riva del Garda Italy (twice), Olomouc Czech Republic, Wales, Hong Kong (4 times), and Taiwan for international festivals and returned with top awards in all categories, in all countries. We have also obtained Golds, Gold with Honours Awards and Certificates of Distinction in all Singapore Youth Festivals since 1997 to 2023, with excellent SYF appraisals during Covid-19 years.

Choir members are disciplined, anchored in choral music and contribute substantially to school events and in-house performances. This CCA provides our graduating cohorts a solid platform for Direct School Admission to preferred Junior Colleges of choice, on account of all-round high attainment levels and distinctions every year. Within convent grounds, the girls lead the school congregation in morning hymn and assembly, and on occasion, are in attendance to assist school masses. In 2024 we took the lead in the Convent's 170th grand anniversary celebrations, participated in the Papal Mass, and returned from the Malaysian Choral Eisteddfod International Choir Festival 2024 with 3 Gold Medals, earning TOP 10 position in the Grand Prix, and clinched the Championship in the Children's Category.

Choir girls give of their best at every local and international competition.

In April 2024, the Band performed at The Esplanade Concert Hall for 'Limelight'.

The Band hopes to inculcate **discipline, perseverance** and **GRIT** in our students as they pursue their passion for music. One of the Band's many aims is to help our students achieve their potential while maintaining the high standards of music. We have graduates who have done the Band proud by excelling in both their instrument as well as their academics, thus developing into well-rounded young women who can make a contribution to society.

In line with the school's motto 'Simple in Virtue, Steadfast in Duty', the band values commitment, diligence and continuous hard work above musical talent in its never-ending pursuit for musical excellence.

If you play a musical instrument like the piano or violin, come join us and enrich your music experience through playing the guitar. Our instructors aim to develop creativity and musical expression, performing soothing and beautiful melodies for all. All new members will be given the opportunity to perform together as a Junior Ensemble in school concerts.

If you are a committed individual who enjoys music, join us in bringing beautiful melodies to comfort the souls of all people.

Technology has imbibed every part of our lives and the next big trend is Robotics and Artificial Intelligence (AI) solutions to automate robots to perform varied tasks. At ARC, we incorporated the use of Design Thinking by designing meaningful day-to-day solutions through the use of robotics.

Through this process, students will develop competencies in building and programming robots, as well as programming and piloting drones. Students also learn software programming which allows them to design online games and many other exciting outcomes. On top of all that, students are trained to have a growth mindset anchored by values such as entrepreneurial dare, grit and teamwork. We have managed to clinch several awards over the past few years at various competitions.

### **Debating and Oratory Society**

The **CHIJ Debating and Oratory Society** is an active society that participates in numerous competitions annually. While our society is invited to several competitions every year, we participate in the ones that offer our debaters a good platform to engage at the highest level of debating as well as receive poignant feedback and adjudication so that they may develop and learn.

With online competitions being a common occurrence since 2020, we have taken part in more international competitions which offer rich learning to our debaters, giving them opportunities to hone their craft as well as engage with students from different parts of the world. Alongside a rigorous and intensive curriculum, every girl in the society is given the opportunity to sharpen their intellect and critically assess events that shape the world we live in. Each debater is expected to devote time outside of CCA sessions to engage in discussions with her team on motions for training and competitions as well as craft original speeches.

Through the development of oratorical skills, students learn to stand and deliver their arguments with confidence and finesse in person as well as via video-conferencing platforms.

**Signing-up for trials is necessary. Students who did not manage to sign up during the CCA Orientation must email the teachers-in-charge.**

## **Frequently Asked Questions (FAQs)**

### **1. Which CCAs require trials and which do not?**

There are CCAs that require you to pass trials/auditions before you can join the CCA. There are also CCAs that conduct try-outs for Sec 1s to experience the CCA, but the Sec 1s need not pass the try-out to join the CCA.

The full list of CCAs that require trials/auditions, or conduct trials, can be found on Page 2 and 3.

### **2. Do DSA Students need to participate in the CCA Trials/Auditions or submit our CCA Choices?**

DSA Students do not need to participate in the trials/auditions. It is also not necessary for them to submit their CCA Choices, as their CCAs have been fixed, according to the talent areas that they entered the school by.

### **3. Are Sec 1 students allowed to start CCA training before the final CCA Allocation results are announced/put up?**

If Sec 1 students would like to start training with the CCA (before the final CCA Allocation), they should approach Mr Daryl Chan for his permission individually first.

However, students should take note that starting CCA training before the final CCA allocation does not guarantee that they will be allocated to that CCA.

### **4. Can we appeal to join another CCA, after our final CCA Allocation is announced?**

Students can appeal, but transfers will only be approved on a case-by-case basis, based on the circumstances provided, as well as the availability of places in the desired CCA.

### **5. What should I do if I would like to change my CCA, after a few months in the CCA?**

- a. Speak to your CCA teacher and see if the concerns can be worked out.
- b. Continue attending your CCA until May or October, before approaching Mr Daryl Chan to discuss a possible change of CCA.
- c. Do take note that a change of CCA may have an adverse effect on your LEAPS2.0 grades.
